CONTAMINATION IN RIGHT OF WAY: ☐ Yes ☒ No

DOCUMENTS NEEDED:

Closure Letter, and any conditional closure letter issued

Copy of most recent deed, including legal description, for all affected properties

Certified survey map or relevant portion of the recorded plat map (if referenced in the legal description) for all affected properties *N/A*
 County Parcel ID number, if used for county, for all affected properties 034104107000

Location Map which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site.

Detailed Site Map(s) for all affected properties, showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or SSRCLs.

Tables of Latest Groundwater Analytical Results (no shading or cross-hatching)

Tables of Latest Soil Analytical Results (no shading or cross-hatching)

Isoconcentration map(s), if required for site investigation (SI) (8.5x14" if paper copy). The isoconcentration map should have flow direction and extent of groundwater contamination defined. If not available, include the latest extent of contaminant plume map.

GW: Table of water level elevations, with sampling dates, and free product noted if present

GW: Latest groundwater flow direction/monitoring well location map (should be 2 maps if maximum variation in flow direction is greater than 20 degrees)

SOIL: Latest horizontal extent of contamination exceeding generic or SSRCLs, with one contour

Geologic cross-sections, if required for SI. (8.5x14" if paper copy)

RP certified statement that legal descriptions are complete and accurate

Copies of off-source notification letters (if applicable)

Letter informing ROW owner of residual contamination (if applicable)(public, highway or railroad ROW)

Copy of (soil or land use) deed restriction(s) or deed notice if any required as a condition of closure

May 12, 2004

Mr. Daniel Vradenberg
4695 Millhouse Rd
Gulf Shores, AL 36542

SUBJECT: Final Case Closure By Closure Committee
Anderson Island Outpost, ½ mile south of the Hwy D/Missionary Point Rd
Intersection, Cable, WI
WDNR BRRTS #: 03-04-177264

Dear Mr. Vradenberg:

On March 4, 2004, your site as described above was reviewed for closure by the Northern Closure Committee. This committee reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of these cases. On March 10, 2004, you were notified that the Closure Committee had granted conditional closure to this case.

On May 10, 2004, the Department received correspondence indicating that you have complied with the conditions of closure, specifically, documentation of the abandonment of the monitoring wells. Based on the correspondence and data provided, it appears that your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code. The Department considers this case closed and no further investigation, remediation or other action is required at this time.

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit <http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm> If your property is listed on the GIS Registry due to groundwater contamination exceeding ch. NR 140 standards at the time of closure, and you intend to construct or reconstruct a well, you will need Department approval. Department approval is required before construction or reconstruction of a well on a property listed on the GIS Registry, in accordance with s. NR 812.09(4)(w). To obtain approval, Form 3300-254 needs to be completed and submitted to the DNR Drinking and Groundwater program's regional water supply specialist. This form can be obtained on-line at the web address listed above.

If there is equipment purchased with PECFA funds remaining at the site, contact the Commerce PECFA Program to determine the method for salvaging the equipment.

Please be aware that this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at 715-365-8990.

Sincerely,
NORTHERN REGION

Mr. Daniel Vradenburg
4695 Millhouse Rd
Gulf Shores, AL 36542

Subject: Conditional Case Closure
Anderson Island Outpost, .5 mile S. of the intersection of Hwy D and
Missionary Point Rd, Township of Namekagon, Wisconsin
WDNR BRRTS # 03-04-177264
PECFA # 54821-1474-74

Dear Mr. Vradenburg:

On March 4, 2004, your request for closure of the case described above was reviewed by the Northern Region Closure Committee. The Closure Committee reviews environmental remediation cases for compliance with state rules and statutes to maintain consistency in the closure of these cases. After careful review of the closure request, the Closure Committee has determined that the petroleum contamination on the site appears to have been investigated and remediated to the extent practicable under site conditions. Your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code and will be closed if the following conditions are satisfied:

The monitoring wells at the site must be properly abandoned in compliance with ch. NR 141, Wis. Adm. Code. Documentation of well abandonment must be submitted to me on Form 3300-5B found at www.dnr.state.wi.us/org/water/dgw/gw/ or provided by the Department of Natural Resources.

When the above conditions have been satisfied, please submit a letter to let me know that applicable conditions have been met, and your case will be closed. Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit <http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm>.

If this is a PECFA site, section 101.143, Wis. Stats., requires that PECFA claimants seeking reimbursement of interest costs, for sites with petroleum contamination, submit a final reimbursement claim within 120 days after they receive a closure letter on their site. For claims not received by the PECFA Program within 120 days of the date of this letter, interest costs after 60 days of the date of this letter will not be eligible for PECFA reimbursement.

Please be aware that the case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site

poses a threat to public health, safety, or welfare or to the environment.

We appreciate your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at 715-365-8990.

Sincerely,
NORTHERN REGION

REGISTER OF DEEDS

'98 APR 2 PM 2 28

REGISTER'S OFFICE/S.S.
BAYFIELD COUNTY, WIS.This Deed, made between Constance D. Vradenburg
and Daniel R. Vradenburg, wife and husbandGrantor,
and Robb J. Jung and Mary E. Jung, husband and
wife, as survivorship marital propertyGrantee,
Witnesseth, That the said Grantor, for a valuable considerationconveys to Grantee the following described real estate in Bayfield
County, State of Wisconsin:

A parcel of land in Government Lot Five (5),
Section Two (2), Township Forty-three (43)
North, Range Six (6) West, Town of
Namakagon, Bayfield County, Wisconsin,
described as follows: Commence at the iron
stake at the southeasterly corner of Block
One (1) of Gottland Resort, following the
westerly side of County Trunk D
approximately 100 feet to an iron stake
established by Elmer A. Anderson which marks the Place of Beginning;
thence continuing in the same northeasterly direction 150 feet along old
discontinued County Trunk D to an iron stake; thence 90° northwesterly 150
feet to an iron stake; thence 90° southwesterly 150 feet to an iron stake;
thence 90° southeasterly 150 feet to the place of beginning.

Grantor also convey, to Grantee, any and all rights Grantor has under the
terms of the easement dated February 7, 1961, and recorded in the Bayfield
County Register of Deeds' office on February 14, 1961, in Volume 177 of
Deeds on Page 69 as Document No. 225145.

This is homestead property.
(to) (is not)

Together with all and singl for the hereditaments and appurtenances thereto belonging;

And Constance D. Vradenburg and Daniel R. Vradenburg
warrants that the title is good, indefeasible in fee simple and free and clear of encumbrances except
easements, reservations and restrictions of record

and will warrant and defend the same.
